New Spectra Precision LT52G and LT58G Laser Tools

Ultra-Bright Green Beams

Trimble is pleased to announce new additions to its industry-leading line up of construction lasers. The Spectra Precision® LT52G Green Beam Point & Crossline Laser Tool and the LT58G 360-degree Laser Tool are automatic self-leveling lasers that project very bright green beams. Green lasers are up to four times brighter to the human eye than red beam lasers making these products a great choice for interior construction.

The laser tools are used in a wide variety of interior applications including leveling, layout, vertical plumb and alignment. These rugged tools pass 3 foot (1 m) drop tests and are designed to outlast all competitive lasers. They include our industry leading 3-year, over-the-counter exchange warranty.

LT52G

The LT52G ultra-bright green lasers are the brightest lasers available anywhere. The LT52G combines a 5-beam laser pointer with a horizontal and vertical crossline laser to form a versatile laser tool to be used in a wide variety of construction alignment applications. The LT52G reduces a contractor's initial investment by combining two products – a laser pointer and a crossline laser – into a single solution. The LT52G package includes the laser, mounting bracket, green target, lithium-ion battery with charger and a hard-shell carrying case

LT58G

The LT58G has three ultra-bright green 360° laser planes. The horizontal plane is ideal for ceiling work. The two vertical planes are 90° apart and are ideal for interior level, alignment, plumb and 90° layout.

The LT58G package includes the laser, versatile ceiling bracket with height adjustment, mount spacer, green target, lithium-ion battery with charger and a hard-shell carrying case

Green Light for Increased Productivity

The LT52G and LT58G join the recently released green beam lasers - LT20G and LP51G.

The common features of this full family of green beam family lasers are:

Ultra-Green Beam Visibility

Superior Reliability and Toughness

The Best Warranty

World Class Dealer and Service Network

This message will be communicated in all the marketing collateral including new packaging designs.

Features and Benefits

- Ultra-bright green laser technology - the industry's brightest lines and points for easy viewing in all conditions – LT52G points are visible up to 60 meters (200 ft)
- Automatic self-leveling assures accuracy and fast setup
- Tough housings designed to protect the unit and endure the rigors of the construction environment
- Rugged – robust design with 1 meter (3 foot) drop specification – keeps you working
- Hard shell case – protective storage and transport
- Powerful lithium ion rechargeable batteries eliminates the need for alkaline batteries
- 3-Year, No Cost, over-the-counter Spectra Precision dealer exchange policy – best coverage for professional construction work
- Point of Purchase Color Carton – visibility increases sales and helps customers choose without assistance

Applications	Tools for All Trades
Horizontal and vertical alignment	Wall crews
Point transfer floor to ceiling	Mechanical installers
Wall layout	Plumbers
Finish carpentry	Electricians
Acoustic ceiling installation	Carpenters
90 degree squaring	Shop fitters

Anyone needing alignment and elevation reference can use this tool to increase their productivity and accuracy

Ordering Information

Part Number	Package Contents	Image	List Price
LT52G	LT52G Point & crossline laser, magnetic mounting bracket, green target, lithium battery and charger, hard carrying case		€ 450.00
LT58G	LT58G 3 x 360° laser, adjustable ceiling bracket, spacer for mount, green target, lithium battery and charger, hard carrying case		€ 625.00

Specifications	LT52G	LT58G
Accuracy	3 mm @ 15 m (1/8" @ 50 ft)	3 mm @ 15 m (1/8" @ 50 ft)
Visual distance	60 m (200) Points 30 m (100 ft) Lines	30 m (100 ft) Lines
Laser class / wavelength	Class 2 520nm	Class 2 520nm
Power Supply - batteries - battery life	Lithium Ion 3.7V, 4800mAh Points 25 - 40 hr / Lines 8 - 17 hr	Lithium Ion 3.7V, 7200mAh 11 - 25 hr
Out of Level Indication	Laser beam flashes constantly	Laser beam flashes 3 times every 10 seconds
Self Leveling range	± 3°	± 4°
Environmental - IP	IP54	IP54
Drop Specification	1 m (3 ft)	1 m (3 ft)
Product Size (l x w x h)	139 x 76 x 140 (mm 5.7 x 3.0 x 5.9 in)	152 x 117 x 76 mm (6.0 x 4.6 x 3.0 in)

Components - Included with Lasers

Part Number	Description	Image	List Price
M152	Magnetic Mount, LT52		€ 15.00
1215-1650	Ceiling Mount, LT58G		€ 50.00
1215-1560	Green Target, LT52G / LT58G		€ 10.00
1215-1610	Charger, 2A, LT52G /LT58G		€ 40.00
1215-1550	Mount Spacer, LT58G		€ 20.00
1215-1740	Carrying Case, LT52/G		€ 45.00
1215-1640	Carrying Case, LT58/G		€ 45.00
Q104252	Laser Glasses, Green		€ 10.50

Accessories, Optional

Part Number	Description	Image	List Price
TR10	Mini-Tripod with adjustable head		€ 32.00
M156	Fine Adjustment Trivet		€ 40.00
