BNMS-100 Mixing Station

1. Check the package you received to ensure all parts are included. If any parts are missing do not return this product to the store but contact BN Customer Service at 1-800-992-3833.

2. To attach the Casters (#1) turn the Lower Fame Assembly (#5) upside down on a level surface. The two locking casters need to be installed in the back of the frame that is near the Foot Lock Lever (#4). Use a 3/4″ open end wrench and a rachet with a 3/4″ socket to install the casters. Install a wheel bolt and washer up through the Lower Frame (#5) and through the Caster and attach with a Lock Nut (#3) on each wheel.
Diagram A

3. Place the Back Plate (#22) inside the Bucket Frame (#21) with the threaded stud sticking out of the bottom hole and loosely start the Wing Nut (#27). Thread the Lock Handle (#26) through the Bucket Frame and into the Back Plate but leave loose. See Diagram B.

4. With the Back Plate (#22) very loose slide the Extension Frame (#8) into the Bucket Frame and lock into place about 4 inches from the bottom.

Diagram B

5. Slide the Extension Tube (#10) with swivel into the Extension Frame and lock in place with the Pin (#9). See Diagra C.

6. Attach the two Knob Bolts (#13) to the Swivel Assembly.

7. Install the battery in the Timer and attach it to the back bracket.

8. The electric mixer can now be installed and the Swivel adjusted with the Bottom Knob (#18).

Note: When attaching an electric mixer, the paddle will need to be pushed up through the Swivel and threaded into the mixer.
