

Engineered with You in Mind

Built to Perform

FallTech Fall Protection products are engineered to perform and keep workers safe when working in tough, challenging conditions. Whether on a construction site, chemical facility, refinery, rod busting or any other job, FallTech's Anchors, Bodywear, Connectors, Self-Retracting Devices, Tripods and products offer superior durability and protection to keep workers safe.

The FallTech Advantage

You can work in confidence knowing your fall protection is engineered to the highest standards of safety and reliability and comply with all applicable ANSI Standards and OSHA Regulations.

FallTech Testing Lab Accreditation

FallTech's internal testing lab has met the stringent requirements of the IAS Accreditation Criteria for Testing Laboratories (AC89) and has demonstrated compliance with ISO/IEC Standard 17025:2005.

Perform with Confidence

Different jobs have varying fall protection requirements; at the core, every worker requires safety. The Journeyman *FLEX* family of harnesses offers numerous bodywear options for whatever job situation you or your team need to tackle.

Journeyman *FLEX* harnesses deliver comfort, durability and value. Built for the toughest of work environments, the *FLEX* line offers the largest variety of fall protection for construction and general industry. Whatever the application, Journeyman *FLEX* has you and your team covered with options in both steel and aluminum hardware.

Journeyman *FLEX*...Comfort is all in the Padding

JOURNEYMAN *FLEX* ALUMINUM
