New Spectra Precision LP51G and LP51 Laser Pointers

LP51G 5-beam High Visibility Green Beam Laser LP51 5-beam Red Beam Laser with Reduced Price

Spectra Precision is pleased to announce new additions to its industry-leading line up of construction lasers – the Spectra Precision® LP51G and LP51 5-beam laser pointers.

These products replace the LP30 and LP50 laser pointers.

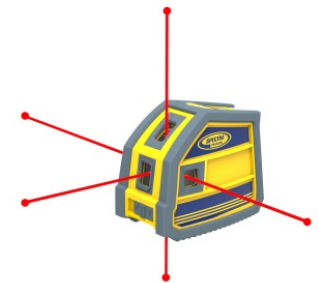

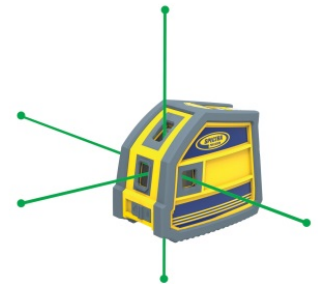

The LP51G and LP51 laser pointers project 5 beams - one beam up, one down and three horizontal beams 90 degrees to each other. They are used for point transfer floor to ceiling, plumb, level and 90 degree layout. Both products are compact, include a magnetic mounting bracket and target and are packaged in a soft pouch with a belt loop. These are easy to carry on you tool belt and easy to store in lock boxes.

New products offer competitive advantages over their predecessors and over the competition:

- The LP51 5-beam red laser is about the same price as previous 3-beam laser!
- The LP51G 5-beam green laser is about the same price as the previous LP50 5-beam red laser! The LP51G 5-beam green laser has a much lower price than any competitive model.

More laser points and green lasers equal more value! Customers that traditionally purchase 3-beam lasers can upgrade to 5-beam lasers. Customers that traditionally purchase 5-beam lasers can upgrade to the high visibility green beam lasers.

- The pointers maintain the 3 foot (1 m) drop specification.
- The warranty has been improved to a full 3-year, no cost, over the counter exchange program. The supplemental charge for the 3rd year has been eliminated.

Trimble - Precision Tools, 5475 Kellenburger Road, Dayton, Ohio 45424, USA

Components and Accessories

Part Number	Description	Image	List Price
23416	Red target		\$10
1215-1560	Green target		\$10
1213-0100	Magnetic bracket		\$20

Specifications

Part Number	Package Contents
Level & Up Beam Accuracy ^{1,2}	± 3 mm @ 10 m (± 3/16 in. @ 50 ft)
Down Beam Accuracy ^{1,2}	± 4 mm @ 10 m (± 1/4 in. @ 50 ft)
Square Beam Accuracy ^{1,2}	± 3 mm @ 10 m (± 3/16 in. @ 50 ft)
Self-Leveling Range	±4° from level
Out-of-Level Indicator	Beam flashes
Working Range ³	Up to 30 m (100 ft)
Laser Class	LP51G - 2 / LP51 - 3R, 3A
Laser Type	520 -635 nm
Drop Height on Concrete	1 m (3 ft)
Battery Type	2 AA alkaline
Battery Life ¹	LP51 - 20 hrs; LP51G - 10 hrs
Low Battery Indicator	Power/Low Battery LED changes to Red
Manual Mode and Compensator Lock Indicator	LED On and beam flashes

1) at 21° C (70° F)

2) along the axis

3) depending on ambient conditions

Availability

The LP51 and LP51G are in stock and available for immediate shipment.
